

**Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 58 chsweetan, Seller ID AARI38VLTS2NK,
ASIN B0CS69R6MB**

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under ASIN B0CS69R6MB is a “Cocktail Smoker Kit . . .” which is a device for imparting smoked flavors to beverages and foodstuffs.

The screenshot shows the Amazon product page for a "Cocktail Smoker Kit with Torch, Whiskey Smoker Kit Drink Smoker for Whiskey, Food Smoker for Outdoor BBQ, 6 Flavors Wood Chips & Whiskey Stones, Birthday for Men, Dad, Husband, Boyfriend (No Butane)". The product is by the brand VONATES and has a 3.8-star rating from 24 reviews. The price is \$15.99. The page includes a navigation bar at the top with categories like Medical Care, Groceries, Best Sellers, etc. The main product image shows the torch, smoker, wood chips, and stones. A Prime banner highlights fast, free delivery. A delivery location of Fairfax 22031 is shown. A promotional code 9SLXYPI4 offers a 40% discount. A quantity selector is set to 1, with "Add to Cart" and "Buy Now" buttons. The seller is Amazon, sold by chsweetan.

**Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 65 Sibosen, Seller ID A585L0L7O44AA,
ASIN B0CQR9PY1L**

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under ASIN B0CQR9PY1L is a “Cocktail Smoker Kit . . .” which is a device for imparting smoked flavors to beverages and foodstuffs.

<p>a base having a fuel chamber portion at its upper end and</p>	<p>The “Cocktail Smoker” is a “base” unit that has a fuel chamber at the upper end that can hold wood chips:</p>  <p>fuel chamber portion</p> <p>base</p>
<p>a conduit portion at its lower end,</p>	<p>The Cocktail Smoker has an element protruding at the bottom of the base that is a conduit portion.</p>  <p>conduit portion</p>
<p>the fuel chamber portion comprising an upper wall portion defining a perimeter</p>	<p>The fuel chamber for the Cocktail Smoker has a wall. The wall defines a perimeter of the fuel chamber portion. The fuel chamber for the Drink Smoker has a floor of the fuel chamber portion that extends from the wall to an opening in the floor.</p>

<p>edge of the fuel chamber portion and a floor defining a bottom end, the floor extending from the upper wall portion to an opening in the floor</p>	
<p>wherein the fuel chamber portion is oriented to hold fuel, and</p>	<p>The fuel chamber of the Cocktail Smoker is oriented to hold wood chips for burning. In the instructions on the storefront page, the seller shows the consumer how to place the device on a glass and add wood chips in the fuel chamber for burning with a torch.</p>

wherein the conduit portion is disposed below the floor

The conduit portion of the Cocktail Smoker is oriented below the floor of the fuel chamber.

	 <div data-bbox="1060 300 1516 428" style="border: 1px solid black; padding: 5px;"> <p>Conduit portion below floor of fuel chamber</p> </div>
<p>and comprises a channel through the conduit portion</p>	<p>The channel through the conduit of the Cocktail Smoker is shown on the seller's webstore.</p>  <div data-bbox="827 755 1029 821" style="border: 1px solid black; padding: 5px;"> <p>Channel</p> </div>
<p>so that, when the fuel in the fuel chamber portion is ignited, the channel facilitates flow of</p>	<p>The conduit portion of the Cocktail Smoker has at least one hole, or aperture, in its wall that leads to the channel:</p>  <div data-bbox="940 1276 1108 1343" style="border: 1px solid black; padding: 5px;"> <p>Aperture</p> </div>

smoke
downward
from the
fuel
chamber
portion
through at
least one
aperture
that
extends
from the
channel
space
through a
wall of the
conduit
portion

The instructions demonstrate that when the fuel in the fuel chamber is ignited by a blow torch, the smoke from the ignited fuel flows down from the fuel chamber, through the channel, and out at least one aperture in the conduit into the drinking glass.

**Place wood chips
fuel into chamber**

Start fire with the torch to burn the chips at a certain distance

Ignite the wood chips with a torch and create smoke

**Smoke flows down,
not up, through the
channel in the conduit
and out at least one
aperture in the
conduit**

**Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 68 heyClub, Seller ID AO5AGEWLJ85VI,
ASIN B0BTY2X4JF**

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under ASIN B0BTY2X4JF is a “Cocktail Smoker Kit . . .” which is a device for imparting smoked flavors to beverages and foodstuffs.

Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 77 TrendySupplyStore, Seller ID A3H1L5RQTOYDUF, ASIN B0B8DW7XBJ

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under ASIN B0B8DW7XBJ is a “Cocktail Smoker Kit . . .” which is a device for imparting smoked flavors to beverages and foodstuffs.

<p>a base having a fuel chamber portion at its upper end and</p>	<p>The “Cocktail Smoker” is a “base” unit that has a fuel chamber at the upper end that can hold wood chips:</p> <div data-bbox="390 240 1152 769">  <p>fuel chamber portion</p> <p>base</p> </div>
<p>a conduit portion at its lower end,</p>	<p>The Cocktail Smoker has an element protruding at the bottom of the base that is a conduit portion.</p> <div data-bbox="390 914 1278 1271">  <p>conduit portion</p> </div>
<p>the fuel chamber portion</p>	<p>The fuel chamber for the Cocktail Smoker has a wall. The wall defines a perimeter of the fuel chamber portion. The fuel chamber for the Drink Smoker has a floor of the fuel chamber portion that extends from the wall to an opening in the floor.</p>

<p>comprising an upper wall portion defining a perimeter edge of the fuel chamber portion and a floor defining a bottom end, the floor extending from the upper wall portion to an opening in the floor</p>	
<p>wherein the fuel chamber portion is oriented to hold fuel, and</p>	<p>The fuel chamber of the Cocktail Smoker is oriented to hold wood chips for burning. In the instructions on the storefront page, the seller shows the consumer how to place the device on a glass and add wood chips in the fuel chamber for burning with a torch.</p>

	 <p>1 ADD SMOKE WOOD CHIPS TO THE SMOKER</p>
wherein the conduit portion is disposed below the floor	The conduit portion of the Cocktail Smoker is oriented below the floor of the fuel chamber.

floor

fuel chamber

Conduit portion below floor of
fuel chamber

<p>and comprises a channel through the conduit portion</p>	<p>The channel through the conduit of the Cocktail Smoker is shown on the seller's webstore.</p> 
<p>so that, when the fuel in the fuel chamber portion is ignited, the channel facilitates flow of smoke downward from the fuel chamber</p>	<p>The conduit portion of the Cocktail Smoker has at least one hole, or aperture, in its wall that leads to the channel:</p> 

portion through at least one aperture that extends from the channel space through a wall of the conduit portion

The instructions demonstrate that when the fuel in the fuel chamber is ignited by a blow torch, the smoke from the ignited fuel flows down from the fuel chamber, through the channel, and out at least one aperture in the conduit into the drinking glass.

**Place wood chips
fuel into chamber**

**Ignite the wood
chips with a torch
and create smoke**

Smoke flows down,
not up, through the
channel in the conduit
and out at least one
aperture in the conduit

Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 79 SLOW LIVING, Seller ID A2XFVTJV62TO26, ASIN B0CTFQV1N3

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under ASIN B0CTFQV1N3 is a “Cocktail Smoker Kit” which is a device for imparting smoked flavors to beverages and foodstuffs.

Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 88 cocktail smoker kit, Seller ID A3DGZ3TNHQ9UY9, ASIN B0C289W8X7

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under B0C289W8X7 is a “Cocktail Smoker Kit . . .” which is a device for imparting smoked flavors to beverages and foodstuffs.

and out at least one
aperture in the conduit

**Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 93 JEKOSSEN, Seller ID A1IA9A4135UCKV,
ASIN B0CNYVVVMJ**

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under B0CNYVVVMJ is a “. . . Whiskey Old Fashioned Smoker Kit . . .” which is a device for imparting smoked flavors to beverages and foodstuffs.

that extends from the channel space through a wall of the conduit portion

Place wood chips fuel into chamber

Ignite the wood chips with a torch and create smoke

Smoke flows down, not up, through the channel in the conduit and out at least one aperture in the conduit

**Exemplary Chart for U.S. Patent No. 11,744,256¹ for Defendant No. 99 JoannaTateMonograms,
ETSY Product ID 1384323003**

The primary elements of claim 1 (copied fully below in the left column of the chart) are:

- Fuel Chamber Portion
- Conduit Portion
- Floor
- Channel
- Aperture extends from channel through a wall of Conduit Portion

There are no limitations in the claims for the size, shape, or orientation of the fuel chamber portion, conduit portion, wall in conduit portion, or aperture through a wall of the conduit portion, except that the conduit portion is disposed below the floor.

The following diagram is an exemplary mock-up in cross-section of the type of defendant's smoker product design, with identification of the claim elements. Claims elements are also shown in the chart below using images of Defendant's product.

¹ Plaintiff provides this exemplary claim chart for the purposes of showing one basis of infringement of one of the claims of the 11,744,256 patent by Defendant's accused products as defined in the complaint. This exemplary claim chart addresses the Accused Products broadly based on the fact that the Accused Products infringe in the same general way. Plaintiff reserves the right to amend and fully provide its infringement arguments and evidence thereof until its Preliminary and Final Infringement Contentions are later produced according to the court's scheduling order in this case.

Claim 1

A device for imparting smoked flavors to beverages and foodstuffs, comprising:

The Amazon.com sellers page lists a product for sale under Product ID 1384323003 is a “Cocktail Smoker. . . Drink Smoker Kit . . .” which is a device for imparting smoked flavors to beverages and foodstuffs.

3

<p>a base having a fuel chamber portion at its upper end and</p>	<p>The “Cocktail Smoker” is a “base” unit that has a fuel chamber at the upper end that can hold wood chips:</p>  <p>fuel chamber portion</p> <p>base</p>
<p>a conduit portion at its lower end,</p>	<p>The Cocktail Smoker has an element protruding at the bottom of the base that is a conduit portion.</p>  <p>conduit portion</p>

<p>the fuel chamber portion comprising an upper wall portion defining a perimeter edge of the fuel chamber portion and a floor defining a bottom end, the floor extending from the upper wall portion to an opening in the floor</p>	<p>The fuel chamber for the Cocktail Smoker has a wall. The wall defines a perimeter of the fuel chamber portion. The fuel chamber for the Drink Smoker has a floor of the fuel chamber portion that extends from the wall to an opening in the floor.</p> 
<p>wherein the fuel chamber portion is oriented to hold fuel, and</p>	<p>The fuel chamber of the Cocktail Smoker is oriented to hold wood chips for burning. In the instructions on the storefront page, the seller shows the consumer how to place the device on a glass and add wood chips in the fuel chamber for burning with a torch.</p>

	
<p>wherein the conduit portion is disposed below the floor</p>	<p>The conduit portion of the Cocktail Smoker is oriented below the floor of the fuel chamber.</p> <div data-bbox="730 857 1402 1352">  </div>

<p>and comprises a channel through the conduit portion</p>	<p>The channel through the conduit of the Cocktail Smoker is shown on the seller's webstore.</p>
